

# LUNATIC WHITE

## TECHNICAL DETAILS:

**Apellation:** D.O. Terra Alta

**Alcohol:** 13% vol

**Grape varieties:** White Garnacha

**Serving temperature:** 10°C

## WINEMAKING::

 **Vineyards:** The grapes are grown in Batea area in Terra Alta region, southern Catalonia. Vines are located on “Panal” soils. These quaternary soils are characterized by the presence of fine sand-silt and white coloured silt that contribute to fruity, soft wines with a touch of sweetness.

## TASTING NOTES:

**Appearance** – Straw yellow with green highlights.

**Nose** – Very aromatic, with aromas of green apple, lemon, white flowers, mango and melon, with a mineral touch.

**Palate** – Wine of Mediterranean character. Fresh with some creaminess. Medium acidity and balanced aftertaste.

**Food pairing:** Pairs perfectly with grilled white fish, smoked fish, soft cow cheese, rice, tartars and carpaccios.

**Certification body:** Consell Català de la Producció Agrària Ecològica (CCPAE). We work sustainably in order to obtain the maximum expression. We have been certified with the CCPAE since 2017.

**2019** has been a slightly lower vintage in volume. We highlight the excellent quality due to the weather conditions. The year has been quite dry, but our varieties are used to the water stress.
